Chapter	Page
Acronyms and Abbreviations.....	xi
Executive Summary	ES-1
1.0 Introduction	A1-1
1.1 Background.....	A1-1
1.1.1 IID/SDCWA Water Conservation and Transfer Agreement	A1-2
1.1.2 California's Colorado River Water Use Plan	A1-3
1.1.3 Quantification Settlement Agreement	A1-4
1.2 Purpose and Need for the HCP	A1-5
1.3 Relationship to Other Endangered Species Act Approvals.....	A1-6
1.4 Area Covered by the HCP	A1-7
1.5 Species Covered by the HCP.....	A1-7
1.6 Term of the HCP	A1-12
1.7 Activities Covered by the HCP.....	A1-13
1.7.1 Overview of Covered Activities	A1-13
1.7.2 Water Use and Conservation Activities.....	A1-15
1.7.3 Operation and Maintenance Activities.....	A1-31
1.7.4 Miscellaneous IID Activities.....	A1-47
1.8 Regulatory Context.....	A1-50
1.8.1 Federal Endangered Species Act	A1-50
1.8.2 Bald Eagle and Golden Eagle Protection Act.....	A1-52
1.8.3 Migratory Bird Treaty Act	A1-52
1.8.4 National Environmental Policy Act	A1-53
1.8.5 Salton Sea Restoration Project.....	A1-53
1.8.6 California Endangered Species Act.....	A1-54
1.8.7 California Environmental Quality Act.....	A1-55
1.8.8 California Native Plant Protection Act	A1-55
1.8.9 California Fully Protected Species Statutes.....	A1-55
2.0 Existing Conditions in the HCP Area	A2-1
2.1 Location and Regional Setting	A2-1
2.2 Physical Environment	A2-1
2.2.1 Climate	A2-1
2.2.2 Topography	A2-1
2.2.3 Hydrology and Water Quality of the Imperial Valley	A2-2
2.3 Biological Environment.....	A2-12
2.3.1 Overview of the Biological Environment	A2-12
2.3.2 Wildlife Habitat.....	A2-13

2.3.3 Water Quality and Biological Resources.....	A2-47
2.3.4 Covered Species and Habitat Associations.....	A2-53
3.0 Habitat Conservation Plan Components and Effects on Covered Species	A3-1
3.1 Approach to and Framework for the Conservation Strategy	A3-1
3.2 General HCP Commitments	A3-3
3.3 Salton Sea Habitat Conservation Strategy	A3-3
3.3.1 Amount and Quality of Salton Sea Habitat.....	A3-3
3.3.2 Effects of the Covered Activities	A3-5
3.3.3 Approach and Biological Goals.....	A3-22
3.3.5 Effects on Covered Species	A3-31
3.4 Tamarisk Scrub Habitat Conservation Strategy.....	A3-42
3.4.1 Amount and Quality of Habitat in the HCP Area	A3-42
3.4.2 Effects of the Covered Activities	A3-43
3.4.3 Approach and Biological Goals.....	A3-50
3.4.4 Tamarisk Scrub Habitat Mitigation and Management Measures	A3-50
3.4.5 Effects on Habitat	A3-56
3.4.6 Effects on Covered Species	A3-57
3.5 Drain Habitat Conservation Strategy	A3-86
3.5.1 Amount and Quality of Habitat in the HCP Area	A3-86
3.5.2 Effects of the Covered Activities	A3-87
3.5.3 Approach and Biological Goals.....	A3-95
3.5.4 Habitat Mitigation and Management Measures	A3-96
3.5.5 Effects on Habitat	A3-99
3.5.6 Effects on Covered Species	A3-99
3.6 Desert Habitat Conservation Strategy.....	A3-112
3.6.1 Amount and Quality of Habitat in the HCP Area	A3-112
3.6.2 Effects of the Covered Activities	A3-113
3.6.3 Approach and Biological Goals.....	A3-118
3.6.4 Desert Habitat Mitigation and Management Measures.....	A3-118
3.6.5 Effects on Habitat	A3-124
3.6.6 Effects on Covered Species	A3-124
3.7 Species-Specific Conservation Strategies	A3-147
3.7.1 Burrowing Owls	A3-147
3.7.2 Desert Pupfish.....	A3-155
3.7.3 Razorback Sucker	A3-165
3.8 Agricultural Field Habitat Conservation Strategy.....	A3-166
3.8.1 Amount and Quality of Habitat in the HCP Area.....	A3-166
3.8.2 Effects of the Covered Activities	A3-166
3.8.3 Approach and Biological Goals.....	A3-174
3.8.4 Agricultural Field Habitat Strategy	A3-174
3.8.5 Effects on Habitat	A3-175
3.8.6 Effects on Covered Species	A3-176
3.9 Other Covered Species.....	A3-195
3.9.1 Measures for the Other Covered Species	A3-195
3.9.2 Effects to the Other Covered Species	A3-196

4.0 Monitoring and Adaptive Management.....	A4-1
4.1 Salton Sea	A4-1
4.1.1 Compliance Monitoring.....	A4-1
4.1.2 Effectiveness Monitoring	A4-2
4.1.3 Adaptive Management Program.....	A4-4
4.1.4 Reporting.....	A4-4
4.2 Tamarisk Scrub Habitat	A4-5
4.2.1 Compliance Monitoring.....	A4-5
4.2.2 Effectiveness Monitoring	A4-6
4.2.3 Adaptive Management Program.....	A4-10
4.2.4 Reporting.....	A4-11
4.3 Drain Habitat.....	A4-13
4.3.1 Baseline Covered Species Surveys.....	A4-13
4.3.2 Compliance Monitoring.....	A4-13
4.3.3 Effectiveness Monitoring	A4-14
4.3.4 Adaptive Management Program.....	A4-17
4.3.5 Reporting.....	A4-19
4.4 Desert Habitat.....	A4-20
4.4.1 Baseline Surveys.....	A4-20
4.4.2 Compliance Monitoring.....	A4-22
4.4.3 Effectiveness Monitoring	A4-25
4.4.4 Adaptive Management Program.....	A4-26
4.4.5 Reporting.....	A4-27
4.5 Burrowing Owls.....	A4-32
4.5.1 Compliance Monitoring.....	A4-32
4.5.2 Effectiveness Monitoring	A4-32
4.5.3 Adaptive Management.....	A4-33
4.5.4 Reporting.....	A4-34
4.6 Desert Pupfish	A4-36
4.6.1 Compliance Monitoring.....	A4-36
4.6.2 Effectiveness Monitoring	A4-36
4.6.3 Adaptive Management	A4-37
4.6.4 Reporting.....	A4-37
4.7 Razorback Suckers	A4-40
4.7.1 Compliance Monitoring and Reporting	A4-40
4.7.2 Effectiveness Monitoring	A4-40
4.7.3 Adaptive Management	A4-40
4.8 Agricultural Field Habitat Conservation Strategy	A4-41
4.8.1 Agricultural Statistics	A4-41
4.8.2 Power Line Markers	A4-41
4.9 Other Covered Species	A4-41
4.10 Incidental Takings	A4-42
5.0 Plan Implementation and Costs and Funding	A5-1
5.1 Plan Participants and Covered Persons.....	A5-1
5.1.1 Role and Responsibilities of IID.....	A5-1
5.1.2 Third-Party Beneficiaries	A5-1

5.2 Plan Implementation.....	A5-2
5.2.1 HCP Implementation Team	A5-2
5.2.2 Decisionmaking Processes and Approvals.....	A5-3
5.3 Costs and Funding	A5-5
5.4 Response to Emergencies	A5-5
5.5 Changed and Unforeseen Circumstances.....	A5-8
5.5.1 The No Surprises Rule	A5-8
5.5.2 Changed Circumstances.....	A5-9
5.5.3 Unforeseen Circumstances.....	A5-13
5.6 End of Term of Incidental Take Authorization.....	A5-13
6.0 Alternatives	A6-1
6.1 No Action Alternative.....	A6-1
6.2 Modification of Water Conservation and Transfer Amounts	A6-2
6.2.1 Conservation and Transfer of 130 Thousand Acre-Feet Out of the Basin	A6-2
6.2.2 Conservation and Transfer of 230 Thousand Acre-Feet	A6-3
7.0 References.....	A7-1

Appendices

- A Species Covered by the HCP
- B Methodology for Characterizing Vegetation in the IID Drainage System
- C Species-Specific Avoidance and Minimization Measures for Construction Activities in Desert Habitat
- D Procedures for Removing Burrowing Owls
- E Cropping Patterns in the Imperial Valley 1974-2000
- F General Survey Methods for Covered Species
- G California Endangered Species Act, Application for an Incidental Take Permit Under Section 2081 of the Fish and Game Code for Incidental Take of State-Listed Species Along the Lower Colorado River

Tables

1.5-1 Species Covered by the IID HCP	A1-11
1.7-1 On-Farm Water Conservation Techniques.....	A1-18
1.7-2 Canals Currently Anticipated to Be Lined to Conserve Water and Area Temporarily Disturbed to Line Canals	A1-26
1.7-3 Proposed Lateral Interceptors and Acreage Affected by Construction	A1-30
1.7-4 Proposed Seepage Collectors and Acreage Potentially Affected by Construction	A1-35
1.7-5 Types of Leases and Approximate Acreages of Lands Leased by IID to Third Parties in the HCP Area	A1-49
 2.2-1 Long-Term and Recent Mean Flows and Concentrations for Water Quality Parameters in IID's Service Area	 A2-6

2.3-1	Typical Plant Species Occurring in Drains in Imperial Valley	A2-15
2.3-2	Habitat Along Drains in the Imperial Valley.....	A2-17
2.3-3	Percentage of Drain Area Covered by Each Major Plant Species or Other Habitat Type for the 10 Drains Surveyed by Hurlbert	A2-25
2.3-4	Percent of Different Habitat Types Occurring at Drains Surveyed by Hurlbert	A2-25
2.3-5	Seepage Communities Along the East Highline Canal.....	A2-30
2.3-6	Primary Vegetation of Areas Classified as Adjacent Wetlands in the Salton Sea Database.....	A2-35
2.3-7	Crops Produced (Grater Than 200 Acres) in IID Service Area During 1999.....	A2-39
2.3-8	Fish Species Present in the Salton Sea.....	A2-40
2.3-9	Selenium Concentrations in Freshwater and Marine Fish from Imperial Valley Rivers and the Salton Sea	A2-49
2.3-10	Selenium Concentrations in Mosquitofish and Sailfin Molly from the New and Alamo Rivers and Irrigation Drains and San Felipe and Salt Creeks, Salton Sea, 1988-1990.....	A2-50
2.3-11	Selenium Concentrations in Pelagic Invertebrates from the New and Alamo Rivers and Irrigation Drains and San Felipe and Salt Creeks, Salton Sea, 1988-1990.....	A2-50
2.3-12	Selenium Concentrations in Migratory Birds and Estimated Egg Concentrations from the New and Alamo Rivers, Agricultural Drains, San Felipe Creek, Salt Creek and the Salton Sea Collected During 1988-1990 ..	A2-51
2.3-13	Selenium Concentrations in Bird Eggs and Livers Collected at the Salton Sea, 1991	A2-52
2.3-14	Detection Frequency and Summary Statistics for Selenium in Yuma Clapper Rail Diet and Tissue Samples.....	A2-53
2.3-15	Covered Species Associated with the Salton Sea in the HCP Area	A2-54
2.3-16	Covered Species Associated with Tamarisk Scrub Habitat in the HCP Area....	A2-55
2.3-17	Covered Species Associated with Drain Habitats in the HCP Area	A2-56
2.3-18	Covered Species Associated with Desert Habitat in the HCP Area	A2-56
2.3-19	Covered Species Associated with Agricultural Fields in the HCP Area	A2-58
2.3-20	Covered Bat Species in the HCP Area	A2-58
3.3-1	Catch Per Unit Effort for Tilapia in the Salton Sea	A3-4
3.3-2	Mean and Upper and Lower Bounds of the 95 Percent Confidence Interval Around the Year that Salinity of the Salton Sea is Projected to Exceed 60 ppt Under the Baseline Condition and Various Water Conservation and Transfer Scenarios	A3-6
3.3-3	American White Pelicans Reported at the Salton Sea, California.....	A3-10
3.3-4	California Brown Pelicans Reported at the Salton Sea, California	A3-12
3.3-5	Number of Pairs or Nest Initiations by Black Skimmers at various Locations in California, 1972-1995.....	A3-14
3.3-6	Mean and Upper and Lower Bounds of the 95 Percent Confidence Interval Around the Year that Salinity of the Salton Sea is Projected to Exceed 90 ppt Under the Baseline Condition and Various Water Conservation and Transfer Scenarios	A3-16

3.3-7	Year When the Water Surface Elevation of the Salton Sea is Projected to Decline 2, 3 and 4 Feet Under the Baseline Condition and Various Water Conservation and Transfer Scenarios.....	A3-20
3.3-8	Potential Effects of Covered Activities on Covered Species Associated with the Salton Sea.....	A3-20
3.4-1	Location and Acreage of Tamarisk Shrub Habitat in the IID HCP Area	A3-43
3.4-2	Potential Effects of Covered Activities on Covered Species Associated With Tamarisk Scrub Habitat.....	A3-43
3.4-3	Potential Impacts to Tamarisk Scrub Habitat in the Imperial Valley	A3-49
3.4-4	Structural Characteristics of Riparian Vegetation According to Anderson and Ohmart (1984) Classification System.....	A3-52
3.4-5	Wildlife Habitat Value Rating for Tamarisk and Cottonwood/Willow Habitats.....	A3-53
3.5-1	Estimated Acreage and Characteristics of Drain Habitat in Drains and Seepage Areas in the IID HCP Area.....	A3-86
3.5-2	Estimated Number of Additional Vegetated Acres Necessary to Offset Potential Selenium Effects on Hatchability Associated With Varying Water Conservation Amounts and Techniques	A3-89
3.5-3	Potential Effects of Covered Activities on Covered Species Associated With Drain Habitat	A3-90
3.5-4	Reported Densities of Yuma Clapper Rails	A3-102
3.6-1	Miles of Canals Adjacent to Desert Habitat	A3-113
3.6-2	Covered Activities That Would Not Affect Covered Species Associated With Desert Habitat	A3-114
3.6-3	Structures on the AAC, East Highline, Westside Main, Thistle, and Trifolium Extension Canals	A3-117
3.7-1	Potential Effects of Covered Activities on Desert Pupfish	A3-156
3.8-1	Potential Effects of Covered Activities on Covered Species Associated With Agricultural Field Habitat.....	A3-169
3.9-1	Covered Species Addressed Separately from the Habitat-Based and Species-Specific Conservation Strategies.....	A3-195
4.1-1	Vegetation Cover Classes of the California Native Plant Society	A4-3
5.2-1	Actions Requiring Approval from the USFWS and CDFG	A5-3
5.4-1	Measures pf the HCP that Contain Elements that IID Would not Be Able to Follow When Responding to Emergencies	A5-6

Figures

1.4-1	HCP Area Front.....	A1-9
1.7-1	Major Features of the IID Water Conveyance System	A1-14
1.7-2A	On-Farm Conservation Measures.....	A1-19
1.7-2B	On-Farm Conservation Measures.....	A1-21
1.7-2C	Level Basin	A1-23
1.7-3	Proposed Conveyance Lining Locations in the IID Water Service Area.....	A1-27

1.7-4	Proposed Lateral Interceptor Systems and Reservoirs in the IID Water Service Area.....	A1-28
1.7-5	Conceptual Lateral Interceptor System and Mid-Lateral Reservoir	A1-29
1.7-6	Existing and Proposed Seepage Recovery System in the IID Water Service Area.....	A1-32
1.7-7	Conceptual Seepage Recovery Systems	A1-33
1.7-8	IID Conveyance System.....	A1-37
2.2-1	Total Farm Drainage from IID Discharging into the Salton Sea	A2-4
2.3-1	IID Drainage System	A2-14
2.3-2	Drains Surveyed for the Modified Trifolium Interceptor, East Lowline, and Completion Projects	A2-16
2.3-3	Drains Surveyed in HCP Area by Hurlbert, et al (1997)	A2-24
2.3-4	Typical Lateral Drain Profile.....	A2-27
2.3-5	Seepage Communities Adjacent to the East Highline Canal.....	A2-31
2.3-6	Habitat Around the Salton Sea	A2-33
2.3-7	Location of State and Federal Refuges and Existing Wildlife Habitat.....	A2-36
2.3-8	Desert Habitats Inland Adjacent to the HCP Area	A2-45
3.3-1	Projected Salinity Levels With and Without Implementation of the Water Conservation and Transfer Programs.....	A.3-7
3.3-2	Year that Mean Salinity of the Salton Sea is Projected to Exceed 60 ppt Under the Baseline Condition and the Potential Range of Water Conservation Amounts and Transfer Locations.....	A3-8
3.3-3	Number of White Pelicans Reported in Christmas Bird Counts at the Salton Sea from 1940 to 2000	A3-9
3.3-4	Projected Water Surface Elevation With and Without Implementation of the Water Conservation and Transfer Programs	A3-17
3.3-5	Reduced Surface Elevations in 2077 Under Various Water Conservation Scenarios	A3-19
3.3-6	Salinity Projections in the Salton Sea Under the Baseline.....	A3-23
3.3-7	Projected Mean Water Surface Elevation of the Salton Sea Under the Proposed Project and the Baseline	A3-24
3.7-1	Drains Supporting Desert Pupfish.....	A3-160
3.7-2	IID Drain and Lateral Reconstruction	A3-162
3.8-1	Historic Acreages of Alfalfa and Bermuda Grass in the Imperial Valley	A3-167
3.8-2	Historic Acreages of Sudan Grass and Wheat in the Imperial Valley	A3-168
3.8-3	Christmas Bird Count Results for the Salton Sea (South End) for Mountain Plovers	A3-177
3.8-4	Number of Sheep Grazed in the Imperial Valley.....	A3-178
3.9-1	Process For Refining Measures for the Other Covered Species	A3-197
4.2-1	Tamarisk Scrub Habitat Conservation Strategy Implementation Process	A4-7
4.3-1	Drain Habitat Conservation Strategy Implementation Process.....	A4-15
4.4-1	Implementation Process for Desert Habitat Conservation Strategy Habitat Acquisition/Restoration.....	A4-23

4.4-2	Implementation Process for Desert Habitat Conservation Strategy	
	Avoidance and Minimization Program	A4-29
4.5-1	Burrowing Owl Adaptive Management Framework	A4-35
4.6-1	Desert Pupfish Selenium Evaluation.....	A4-38
4.6-2	Desert Pupfish Drain Maintenance Evaluation	A4-39
5.2-1	Decisionmaking and Approval Process.....	A5-5
